After hour Services
Background
Setiabudi as a one stop service HIV in Setiabudi district, South Jakarta located in central business district of DKI Jakarta.

The majority of our HIV clients are working in the central business district so they need an easily accessible place that opened after working hour for their health services.

Our human resources are trained and available to do the after hour services.

There is a Memorandum of Understanding with third parties in the operational costs of after hour services.
ARSA CLINIC
One Stop Service HIV
• Comes from Sanskrit language that means HAPPINESS

• A One Stop Care Clinic HIV-AIDS at Setiabudi Community Health Center

• Running from October 2010 by opening screening test service for HIV and STI. The clinic settings was founded by Global Fund through Health Department of DKI Jakarta Province

• Starts to open the CST programme in August 2013, at first as a satellite clinic for Tarakan Regional Public Hospital then at December of 2013 becomes an Independent CST service.

• Our service includes VCT, STI testing and treatment service, PITC, TB-HIV collaboration, PMTCT, CST service, mobile clinic for VCT and STI, and Prenuptial HIV and STI check.

• We have 4 doctors, 3 nurses, 2 pharmacist, 2 laboratory analyst, and 1 administration officer trained for HIV by the standard of Ministry of Health.
