

## ILF roundtable

# Regulatory pathways and clinical trial design for long-acting PrEP

Monday, 5 March 2018, 18:00 – 21:30

Fenway (Ansin Building, 9th floor, 1340 Boylston Street, Boston, USA)

# Next steps

Two short reports will follow from this meeting:

- A technical version summarizing the main outcomes for people working in the area (researchers, regulators, industry)
- A community version for current PrEP users and others with an interest in PrEP on the future availability of long-acting PrEP and the evolution of clinical trial participation (in particular with regards to concomitant use of oral PrEP).
