Associate Project Manager, IAS Educational Fund

About the IAS:

The International AIDS Society (IAS) leads collective action on every front of the global HIV response through its membership base, scientific authority and convening power. Founded in 1988, the IAS is the world’s largest association of HIV professionals, with members in more than 170 countries. Working with its members, the IAS advocates and drives urgent action to reduce the impact of HIV. The IAS is also the steward of the world’s most prestigious HIV conferences: the International AIDS Conference, the IAS Conference on HIV Science, and the HIV Research for Prevention Conference.

The IAS promotes and invests in HIV advocacy and research on key issue areas through our strategic programmes, initiatives, and campaigns that advocate for urgent action to reduce the global impact of HIV, including increased investment in HIV cure research; optimizing treatment and care for infants, children and adolescents with HIV in resource-limited settings; preventing and treating HIV-related co-infections; and expanding access to prevention, treatment and care for key populations vulnerable to HIV acquisition – such as men who have sex with men, people who inject drugs, sex workers and transgender people – including protecting their human rights by combatting punitive laws and discriminatory policies.

Details of Employment:

The Associate Project Manager, IAS Educational Fund will be based in Geneva, Switzerland and report to the Senior Project Manager, IAS Educational Fund. The position is full-time and one-year maximal duration contract with possibility of extension. The successful candidate should start as soon as possible.

Purpose of the Position:

The rapid pace of scientific discovery in care for people living with HIV and AIDS requires clinicians, HIV service providers and other key stakeholders to remain continually up to date on research developments and best practices. In 2016, IAS – the International AIDS Society – launched the IAS Educational Fund which provides inclusive educational opportunities for key stakeholders, including HIV health and social service providers, researchers, policy makers and key community actors, to facilitate bridging the gap between evidence-based science, policy and action.

This is accomplished by organizing regional meetings, providing capacity building opportunities to targeted stakeholder groups (scholarships, fellowships, mentorships), organizing webinars and making the content of IAS conferences accessible to wider audiences.

The incumbent will be responsible for providing support in particular to the project management and implementation of regional meetings, webinars and other digital activities and online resources. This requires experience in workshop and event planning and implementation (virtual and in person), in organizing webinars and other virtual and digital activities, as well as having strong language skills.
